24th April 2019

Our Ref: FOI2019/02041

Dear Requestor

**REQUEST UNDER THE FREEDOM OF INFORMATION ACT 2000 Ref No: FOI2019/02041**

I write in connection with your request for information received on 26th March. I note you seek access to the following information:

**I'd like to request information regarding the theft, robbery and burglary related to digital cameras and photography equipment within your police force. In addition, I would like the information to be in the data set of calendar years regarding 2014-2018 (last 5 years). Is it also possible to state if any of the items were ever recovered and the conviction rate related to these crimes? Additionally, would it be possible to provide the borough locations of the crime, time the crime was committed, gender of the victim or if it was from a business, age range of the victim, value of the equipment stolen. How much police time and resources (in hours and £ GBP value) was spent related to solving the crime.**

I am required by the Freedom of Information Act 2000 (The Act) to handle all requests in a manner that is blind to the identity of the requestor. Any information released in response to a request is regarded as being published and therefore, in the public domain without caveat.

**RESPONSE** - Following enquiries conducted by Bedfordshire Police please see our response on the attached document marked as **Annex A – FOIO23019 02041** below.

Bedfordshire Police made a significant investment in a new ICT system, Athena, in May of this year which, when fully implemented, will help keep Bedfordshire safe, bring more offenders to justice and improve outcomes for victims. Updating our ICT was absolutely necessary to ensure Bedfordshire Police remains as effective and efficient as possible. The public should be reassured crime continues to be reported and investigated as normal but whilst colleagues become more comfortable and familiar with how Athena works Bedfordshire Police has some concerns around data quality for which reason some of the data provided concerning events recorded after 23 May, may include some inaccuracies. We apologise for the situation and are working to resolve it as soon as possible.

Bedfordshire Police are unable to provide the police time or value of the stolen cameras.

The numerical data presented in this response is an un-audited snapshot of un-published data sourced from "live" systems and is subject to the interpretation of the original request by the individual extracting the data.

Should you have any further enquiries concerning this matter please do not hesitate to contact me quoting the above reference number.

Yours sincerely

Gary Maxey
