Dear Requestor

REQUEST UNDER THE FREEDOM OF INFORMATION ACT 2000 Ref No: FOI2019/01413

I write in connection with your request for information received on 28th February. I note you seek access to the following information:

In the past 12 months how many taxi drivers have been recorded as 'victims of crime' and how does this compare to the previous 12 months?

I am required by the Freedom of Information Act 2000 (The Act) to handle all requests in a manner that is blind to the identity of the requestor. Any information released in response to a request is regarded as being published and therefore, in the public domain without caveat.

RESPONSE - Following searches conducted by Bedfordshire Police crime databases, please see our response in the table below.

Recorded Crimes - Victim Occupation - Taxi Driver			
01.01.2017 - 31.12.18			
	2017	2018	Grand Total
Number of victims	395	319	714

Bedfordshire Police made a significant investment in a new ICT system, Athena, in May of this year which, when fully implemented, will help keep Bedfordshire safe, bring more offenders to justice and improve outcomes for victims. Updating our ICT was absolutely necessary to ensure Bedfordshire Police remains as effective and efficient as possible. The public should be reassured crime continues to be reported and investigated as normal but whilst colleagues become more comfortable and familiar with how Athena works Bedfordshire Police has some concerns around data quality for which reason some of the data provided concerning events recorded after 23 May, may include some inaccuracies. We apologise for the situation and are working to resolve it as soon as possible.

The numerical data presented in this response is an un-audited snapshot of un-published data sourced from "live" systems and is subject to the interpretation of the original request by the individual extracting the data.

Should you have any further enquiries concerning this matter please do not hesitate to contact me quoting the above reference number.

Yours sincerely
